EDUCATION

- **Indian Institute of Information Technology, Allahabad** Aug 2024 - present
Bachelor of Technology in Electronics and Communication Engineering CGPA: 8.13
- **Vardhman Srikalayan International School, Jaipur, Rajasthan** 2024
Class 12th Percentage: 92.0
- **St. Anselm's North City School, Jaipur, Rajasthan** 2022
Class 10th Percentage: 95.8

PERSONAL PROJECTS

- **GrandMaster Ferb (High-Performance Chess Engine)** 🔄 🌐
C++, Bitboards, Negamax, Alpha-Beta Pruning, UCI Protocol, JavaScript, HTML, CSS
 - Engineered a custom chess engine core in **C++** utilizing **Bitboards**, **Alpha-Beta pruning**, and the **Negamax search algorithm**, achieving highly optimized and rapid move generation.
 - Implemented the Universal Chess Interface (**UCI**) protocol for seamless integration with standard chess GUIs, and validated absolute move accuracy through rigorous **Perft testing** frameworks.
 - Developed an interactive, responsive **Web UI** using **Vanilla JavaScript**, **HTML**, and **CSS**, providing a sleek frontend for users to play against the engine with real-time feedback and dynamic move commentary.
- **Couch-Critic Ferb (Content-Based ML Recommendation System)** 🔄 🌐
Python, Pandas, NLTK, Scikit-Learn, FastAPI, httpx, TMDB API
 - Constructed a content-based movie recommendation model using **Python**, **Pandas**, **NLTK**, and **Scikit-Learn**, employing **Cosine Similarity** and text vectorization on a robust **5000+ movie** dataset.
 - Architected an asynchronous backend API using **FastAPI**, handling real-time recommendation requests and fetching live movie metadata concurrently via the **TMDB API** with **httpx**.
 - Integrated the machine learning pipeline into a dynamic, user-friendly frontend interface, delivering tailored movie suggestions with **sub-second latency** and improving overall user discovery.

SKILLS

Languages: C, C++, Python, JavaScript, HTML, CSS

Developer Tools: Git, GitHub, VSCode, PyCharm

Frameworks & Libraries: FastAPI, Pandas, Scikit-Learn, NumPy, TensorFlow, Keras, PyTorch, NLTK

AI Tools: ChatGPT, Claude, Gemini, Github Copilot, Cursor, Anti-Gravity

Machine Learning: Scikit-Learn, NumPy, Pandas, Matplotlib, Regression, Classification, CNN, RNN, KNN, Clustering, Content-Based Recommendation, Natural Language Processing

ACHIEVEMENTS

- Achieved **AIR 10040** (Top 0.6%) in **JEE Main 2024** demonstrating high mathematical aptitude.
- Attained **Pupil**(max. 1238) on Codeforces (abhijeet.sharma) and **3★**(max. 1615) on CodeChef (abhisharma25) and Solved 150+ LeetCode problems (ferb01)
- Solved 400+ problems across Codeforces, CodeChef, LeetCode and GeeksforGeeks
- Solved 100+ problems on Graphs, Dynamic Programming and Trees

POSITION OF RESPONSIBILITY

- **Senior Member – Sarasva, Literary Society (IIITA)** Aug 2025 – Present
 - Spearheaded flagship institutional events like TEDx-IIITA and MUN-IIITA, coordinating logistics and outreach for 500+ attendees while ensuring seamless execution.

CERTIFICATES

- **Supervised Machine Learning: Regression and Classification**—Stanford Online Jan 2025
- **Advanced Learning Algorithms**—Stanford Online Feb 2025

EXTRACURRICULAR

- Achieved a peak Rapid rating of **1764 (Top 1%)** on **Chess.com**, demonstrating advanced pattern recognition and analytical calculation.
- Awarded **1st Prize** at **IIITA Kavi Sammelan '25**; actively write and recite poetry.
